## BUSINESS NEWS OF BUSY MARKS

San Joaquin Reports Year of Record Prosperity

Price Trend Still Shows an Upward Tendency

Mexican Financial Crisis; Victories Called

Earnings for the twelve months ended November 30 of the San Joaquin Light and Power Corporation show \$16.33 earned on the 68,997 shares of prior preferred 7 per cent stock and \$14.15 on the 68,998 shares of 6 per cent preferred stock. The balance available for dividends after operating expenses and fixed charges totals \$1,047,181.11, leaving a remainder of \$1,047,181.11 after the payment of dividends on the preferred stock.

Gross earnings from all sources for the twelve months amounted to \$1,047,181.11, and operating expenses, including maintenance, taxes, etc., aggregated \$1,047,181.11. The balance available for dividends after operating expenses and fixed charges totals \$1,047,181.11, leaving a remainder of \$1,047,181.11 after the payment of dividends on the preferred stock.

Although the company is returning substantial sums to surplus from earnings from operations, no plans are being formulated, at present, according to A. E. Peat, treasurer and controller, for immediate payment of the accrued dividends on the preferred stock. The next dividend meeting takes place in February, and until that time, no action will be taken. Earnings above dividend requirements are being devoted at this time to maintain adequate service to the company's customers and to pay for improvements under way.

One of the projects on which the San Joaquin Light and Power Corporation is engaged is the construction of a \$600,000 office building at Fresno. The building will be ten stories in height, and will be Fresno's leading skyscraper. The prior preferred stock of the company, which at present is traded in on the United States market, will be listed on the Los Angeles Stock Exchange and the San Francisco Stock Exchange around the first of the year, according to Mr. Peat. Application has been made to the listing committees of the two exchanges, and favorable answers are expected soon. Outstanding prior preferred stock totals \$4,148,000. From an authorized amount of \$11,000,000.

The earnings statement for the twelve months ended November 30, is as follows:

General prices will continue to advance because all of the fundamental factors that have been effective in the rise so far are still in the same direction, says the Standard Daily Trade Service in offering its opinion on the trend of commodity prices. The advance that has already occurred is explained as merely a stage, in a larger general movement, of a long price upswing.

The short term is not so clearly defined, according to the service of the Daily Trade Service. It expects the appearance of halting prices in wholesale markets during the winter months, but forecasts a slight continuance of the upward trend.

## DAILY TRADE TALK

Bank Review of Business; Money Situation Improved; Investments; Dodge May Hold Over

There is one institution of worth that has functioned to the full limit of usefulness, and performed the service unflinchingly by the holiday crowding of commercial channels. That institution is the "Business Summary," issued monthly by the Citizens National Bank of Los Angeles.

The current issue of the publication will be in the hands of its readers Saturday, and a preview discloses some very useful hints to the business man. The general business situation is covered briefly and pointedly.

The summary credits the foreign situation with being the most extremely easy money condition being taken to the foreign market. The summary states that the foreign market is being taken to the foreign market. The summary states that the foreign market is being taken to the foreign market.

The summary states that the foreign market is being taken to the foreign market. The summary states that the foreign market is being taken to the foreign market. The summary states that the foreign market is being taken to the foreign market.

# The Times

LOS ANGELES

FRIDAY MORNING, DECEMBER 15, 1922. -PART II. 12 PAGES.

POPULATION (By the City Directory--1921) 321,121 (By the Federal Census--1920) 312,692

**PLANNING ADDITION**  
The city planning commission will meet today to consider the addition of a new street to the city limits. The commission is composed of the city engineer, the city planner, and the city auditor. The new street is to be located in the city of Los Angeles, and is to be named after the city's first mayor, John S. Gair.

**Funeral Plans**  
The funeral of the late John S. Gair will be held at the city hall on Monday morning. The funeral will be attended by the city officials and the members of the city council. The funeral will be held at 10 o'clock a.m.

**Floralists**  
The floralists of the city are preparing for the Christmas season. They are displaying a variety of flowers and plants in their shops. The floralists are also preparing for the New Year's season. They are displaying a variety of flowers and plants in their shops.

**Cemetery**  
The city is planning to build a new cemetery. The new cemetery is to be located in the city of Los Angeles, and is to be named after the city's first mayor, John S. Gair. The new cemetery is to be built on a site that is owned by the city.

**Police Asked to Hunt**  
The police are asked to hunt for a man who is wanted for a crime. The man is named John S. Gair, and is wanted for a crime that he committed in the city of Los Angeles. The police are asked to hunt for him because he is a dangerous man, and he is a threat to the safety of the city.

## ATTORNEY AND GIRL ARRESTED

Young Wife and Man Found in Hotel Here Said to be Wanted in Corona

James D. La Motte, said to be a prominent young Corona attorney, and Mrs. Myrtle Jump, aged 17, also of Corona, were arrested at the Roslyn Hotel yesterday by Detectives McCauley and Williams, who are said to have an abduction warrant for the lawyer. The pair, spent Wednesday night at the hotel, where they were registered as man and wife, the detectives assert. Mrs. Jump was held on a technical charge of delinquency.

They disappeared from Corona simultaneously Tuesday night, it is declared, which caused Constable J. D. Sears of Corona to swear out the abduction warrant. Mrs. Jump had been living at the Sears home, it was said, following a brief matrimonial career.

La Motte, according to Corona advice, had been in that city only a short time, having purchased the law practice of George H. Freeman, appointed to Superior Judge of Riverside county, but had made many friends and acquaintances during his stay. Mrs. Jump married three months ago after an elopement to Santa Ana, but soon separated from her husband, who accused her of unfaithfulness. La Motte is married and the father of two children, the Corona authorities say.

## LICKLEY TALKS OF CHARGES

"Tame," is School Chief's Verdict on Letter From John R. Doyle

That's what Dr. Ernest J. Lickley, assistant superintendent of Los Angeles public schools, thinks of the charges filed against him Wednesday by John R. Doyle, principal of the Central Special School. Dr. Lickley did not appear disturbed yesterday in discussing the charges, the second set that has been filed against him recently.

"This is merely a case of a disgruntled employee, whom I forced to resign on account of inefficiency. The charges are rather tame compared to those I have filed against me by Mrs. Bagnall. I am rather suspected, however, that Mrs. Doyle was one of those behind Mrs. Bagnall who she presented her original charges, which Mr. Doyle has not repeated."

Mr. Doyle was formerly an assistant director of compulsory education, serving under Dr. Lickley. From that position he was transferred to the principalship of the Central Special School, Dr. Lickley stated.

"I have not seen the letter filed by Mr. Doyle and cannot say what action I will take, but I expect to take some action regarding these charges at the next meeting of the city board."

## RAPE PLOTTER SOUGHT

Believed Man Who Planned Mrs. Phillips' Flight Is in Los Angeles

The man who planned Clara Phillips' escape from the city, deputy sheriffs under the direction of the police department are investigating several tips as to the whereabouts of the man. The man is believed to be a dangerous criminal, and is a threat to the safety of the city. The police are asked to hunt for him because he is a dangerous man, and he is a threat to the safety of the city.

## Police Asked to Hunt

Men's Relations

The police are asked to hunt for a man who is wanted for a crime. The man is named John S. Gair, and is wanted for a crime that he committed in the city of Los Angeles. The police are asked to hunt for him because he is a dangerous man, and he is a threat to the safety of the city.

## CITIES TO GET FINES OF WETS

Important Conference Held With Woolwine

District Attorney Promises to Help All

Question of Revenue From Cases Discussed

Who does the enforcing and who gets the revenues, the cities or the counties, under the Wright liquor law? was the knotty problem discussed for several hours yesterday at a conference between Dist. Atty. Woolwine, his deputies, Burke and Keyes, and the mayors, chiefs of police and other officials of Los Angeles county.

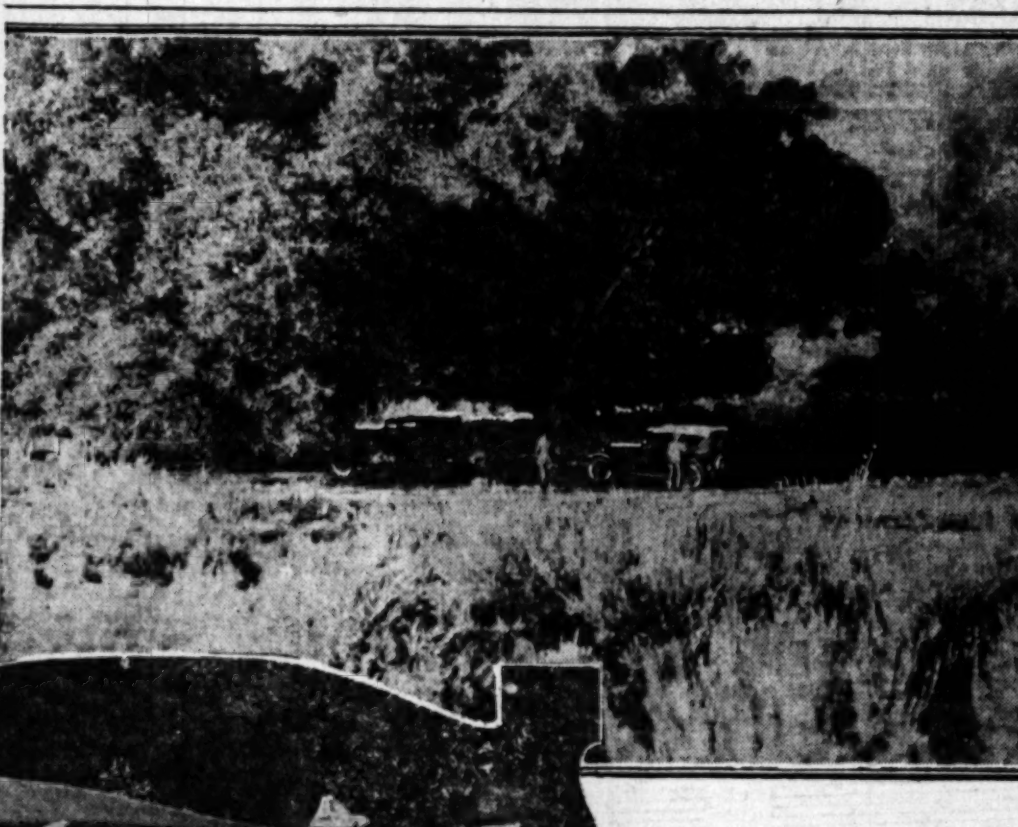

The upshot was a gentlemen's agreement whereby the cities will prosecute bootleggers under the ordinance and so get the revenues.

## Where Canvasbacks Abound

Above, site for adobe clubhouse of Jonathan Club, O. H. Cash and Otto Gilmore, just before starting back to Los Angeles with an auto load of ducks shot on the new concession.

## To Build Club in Hunters' Paradise

## PLAN HUNTERS' PARADISE

Jonathan Club Members Obtain 100,000-Acre Tract in Baja California from Mexican Government

Duck and quail shooting such as is to be found nowhere in the West, with golf the year round and polo in season, are some of the lures held out to California sportsmen by the Jonathan Country Club, which has obtained from the Mexican Federal government a fifty-year grant to 100,000 acres of land in Baja California, and expects to expend \$150,000 on a clubhouse and other improvements. The club is largely composed of members of the Jonathan Club of this city but they are separate organizations.

The grant is near the Mexican pueblo of Tecate, immediately south of the international boundary, and forty-five miles east from San Diego on the old road to El Centro. In the shade of a grove of mighty live oaks and overlooking a small stream it is proposed to build a low, rambling adobe clubhouse. Across the stream a dam is to be erected at a site where a lake more than a mile long may be created.

## RAISE PHEASANTS

Tentative plans also call for the establishment of a pheasant farm where Monaghan or ring-necked pheasants may be reared in large quantities. The club's charter provides for the breeding of polo ponies and it is possible that this branch of sport may be gone into on an extensive scale.

The increased use of automobiles and construction of good roads will lead to one-time haunts of wild game with the consequent diminishing of the game supply caused a number of members of the Jonathan Club to look about for a suitable location for a shooting club. Under the leadership of Dr. Ray D. Robinson they procured a grant from the Mexican government to the Tecate tract. Under the new club's charter the land may be used for any purpose compatible with a gentleman's country club.

A party consisting of Dr. Robinson, Marshall Bond of San Barbara, Earl Gilmore and Otto Gilmore of Los Angeles and Oliver E. Cash of Riverside has just returned from the grant.

## RECORD DOWNPOUR

Although a record-breaking downpour has been experienced, no damage has resulted. The ground was very dry and the storm caused measures took care of the rush from the mountains and new road and bridge construction made it impossible for the waters to do damage enough to interfere with traffic. There have been no serious floods reported, no bridges are damaged and no washouts on the highways have been reported.

In nearly all the cities and towns of the southern counties streets have been filled with water at times during the storm, but the inconvenience incident to the rain has been short-lived.

## JUDGE HUBBELL DIES

Donated Westlake Park Site and Was President of First Street Railway Company Here

Judge Stephen C. Hubbell, resident of Los Angeles county for the past fifty years, the man through whose generosity the city came into the possession of what is now known as Westlake Park, died yesterday morning at the family residence, 1000 Arapahoe street, following an illness of only two days.

Born in Cattaraugus county, New York, in 1841, Judge Hubbell was raised on his father's farm along with seven brothers and sisters. When the resources of the local schools were exhausted, he attended the school which has now become the Chamberlain Institute in Randolph, N. Y., and graduated there with the intention of pursuing the study of law.

To do this he was forced to teach school, but attained his ambition in 1863 when he was admitted to practice in the Supreme Court of New York. Moving to

10 DAYS TO CHRISTMAS

TODAY'S BIBLE TEXT

THE OMNISCIENT GUIDE:—The steps of a good man are ordered by the Lord.—Psalm XXXIII: 22.

## PLAN SKYLINE DRIVE TO SEA

Property Owners Support Boulevard Project

Ribbon of Pavement to Wind Over Mountains

Lateral to be Surveyed Through Canyons

Plans for a great scenic boulevard, which will follow the skyline of the Santa Monica Mountains from Hollywood to the ocean, giving an unsurpassed view of the city and the surrounding mountains, were outlined before a group of nearly 100 representative business men and property owners of the San Fernando Valley, Hollywood, Los Angeles and communities lying along the southern slopes of the range. An enthusiastic meeting was held at the Hollywood Country Club yesterday noon, and the plan was explained in detail by Marlow M. Merriam and William Mulholland.

State, county and city officials were present at the meeting, and expressed themselves as heartily in accord with the project, which not only will serve as a great scenic road between the city and the sea, but also will have great utilitarian value, since it will open new means of access to the San Fernando Valley, which at present has outlet only by way of San Fernando Boulevard, Cahuenga Pass, and Laurel Canyon.

Mulholland Scenic Road, named after the builder of the Los Angeles Aqueduct, has been chosen as the name of the new road, although Mr. Mulholland yesterday urged that the boulevard be given the name of one of our national leaders. This development, Mr. Mulholland said, has been his dream for many years, and he expressed a keen desire that the project be carried through to completion.

## TO FOLLOW CREST

The project, as outlined, calls for the construction of a fifteen-mile road from Hollywood, along the crest of the hills which divide the Santa Monica and Westgate districts from the San Fernando Valley, to the ocean. At the present time Hollywood Boulevard is connected with Ventura Boulevard through the Cahuenga Pass and Laurel Canyon. In addition, it is proposed to extend Cold Water Canyon, Franklin and Benedict Canyon roads through to Ventura Boulevard and to improve the Topanga Canyon Road skirting the San Gabriel Mountains, Pico and Washington Boulevards.

These were the tentative plans, as outlined at yesterday's meeting, but when a final survey is made, it may be feasible to use other canyons as well. It is the intention, however, to construct a great series of roads from Hollywood to the ocean, passing through the San Fernando Valley into the Beverly Hills, Westgate and Santa Monica districts, the nature of the road improvements to be determined after a more accurate study of the topography of the country has been made.

## PRINCE STUDIES FILMS

Former Chamberlain to Franz Josef at Universal City to Learn Fine Points of Picture-Making

His Serene Highness Sasha of Thurn and Taxis, more recently from Prague in Czechoslovakia, arrived at Universal City yesterday sans pomp, sans retinue, but with a ready smile, a firm handshake and the air of a jolly good fellow. The Prince, who is distantly related through intermarriage to the Hapsburg family and who bore the title of royal chamberlain to former Emperor Franz Josef of Austria, left his country last October to enter the motion-picture industry here.

Extremely democratic and looking more like a prosperous banker than a member of royalty, the Prince toured the Universal lot yesterday with Irving Thalberg, director-general of Universal City, and other officials and expressed himself greatly impressed with the American picture industry. Explaining that he was greatly desirous of developing the industry in his own country, the Prince announced that ultimately he would return to supervise the formation of a company there with international scope.

## PRINCE IN NAME ONLY

A Prince in name only, the title being conferred by royal decree through successive generations, the immediate forebears of Prince Sasha were considered high in the royal favor of the Hapsburg dynasty. Since the war the Prince has been living in Prague and traveling through Europe. This is his first visit to the United States.

The motion-picture industry has a great future in Europe, Prince Sasha said. "There we have the natural scenery and the historic atmosphere that you Americans have to spend thousands of dollars to create. Then, too, I believe the Europeans, imbued with the spirit of past generations, have a stronger sense of the dramatic, the artistic, than most Americans. Our industry at home is still in its infancy, but points to great possibilities. Characterizing American pictures as admirably worked out, showing wonderful judgment of

Prince Sasha and Priscilla Dean

MILLIKAN WINS  
EDISON MEDALHigh Honor to Scientist is  
Announced"Tech" Executive's Two Dis-  
coveries ToldNew Rays and "Oil-Drop"  
Tests Hailed

Another high honor for Dr. Robert Andrews Millikan, executive head of California Institute of Technology, was announced yesterday in New York. It was the award to him of the 1933 Edison medal for "meritorious experimental achievement in electrical science." The award was made by the American Institute of Electrical Engineers.

Dispatches said that Dr. Millikan's experiments in attempting to bridge the gap between the wave-length series of light and of X-rays, and his so-called "oil-drop" experiments for more precise electrical measurement, had brought him the award.

**RAY CAPTURED**  
Dr. Millikan, it was said, discovered a series of rays in the "ultra-violet" spectrum, intermediate between X-rays and light rays, which scientific investigators had been unable to discover before.

Particles of oil, a twenty-thousandth of an inch in diameter were used by Dr. Millikan in the "oil-drop" experiments. In these, Dr. Millikan succeeded in trapping single electrons and studying their properties. Electrons are believed to be the fundamental units of matter. The achievement of the scientist in isolating and measuring these units is considered of the highest importance.

**THIRD ELECTRON**  
Dr. Millikan is director of the Norman Bridge physical laboratory at California Institute of Technology and chairman of the executive committee of the institution. He went abroad last summer to lecture in Belgian universities as the first American exchange professor of the Fondation Universitaire Belge, and took the place of Dr. George E. Hale, director of Mt. Wilson Observatory, in the international scientific meetings conducted at Geneva under the League of Nations.

Dr. Millikan was born in Morrison, Ill., in 1895, and has degrees from a dozen distinguished educational institutions. He came to California Institute of Technology in 1921 from the University of Chicago, where he was professor of physics. He first succeeded in isolating an electron in 1911.

PLAN SKYLINE  
DRIVE TO SEA

(Continued from First Page)

establish their homes. I don't know of any place on earth that will compare in natural possibilities with these hills. It is desirable not only from a scenic point of view, but it has strong practical features in the traffic service it will give. And it is practicable from the standpoint of cost.

The plan was outlined in full by Harry I. Merrick, who acted as chairman. The plan will combine under one organization all the interests between Calabasas Pass and Topanga Canyon. Mr. Merrick pointed out that the plan for the series of lateral boulevards through the canyons of the range, all connected at the ridge by a wide boulevard, which at the present time is in such condition that three or four men on horseback can ride from Hollywood to the ocean along the ridge. The project is perfectly feasible, he declared, and it should have been done several years ago, but it can be done now with proper co-operation.

**HILLS VALUED**  
The hills of Los Angeles, between the city and the sea are the future fine residential districts of the city, said A. G. Bartlett, of the City Planning Commission. Before many years the flat lands will be given over to industrial, commercial and apartment buildings, and the better home districts will be found in the hills. This boulevard will open up a vast area of foothill lands for such development, Mr. Bartlett said.

Support to the project was pledged by Acting Mayor Ciriwell, Councilman Langdon, Charles H. Treat, president of the Board of Public Works; Supervisor Woodley and City Engineer Griffin. Among those who were invited to attend the meeting were: William Mulholland, Maj. J. A. Griffin, City Engineer; John R. Prince, City Planning Commission; Cornelius Langdon, City Councilman; W. E. Longyear, vice-president Security Trust and Savings Bank; W. F. Holt, president Hollywood Country Club; A. G. Bartlett, City Planning Commission; Mark Grimes, Van Nuys Chamber of Commerce; Paul Hoffman, Los Angeles Chamber of Commerce; Ralph Ciriwell, Acting Mayor of Los Angeles; Charles H. Treat, president of the Board of Public Works; Stanley Anderson, Beverly Hills Hotel; Harry H. Merrick, realtor; George M. Sunday, realtor; Ross Whitely, property owner; Senator Roscoe, president of the Security Trust and Savings Bank, and George Eastman, president of the Hollywood Chamber of Commerce.

**SOY SERVICES TODAY**  
Funeral services for James Calvert Soy will be conducted today at 10:30 a.m. in the Church of the Angels, Pasadena. Burial will take place in Evergreen Cemetery.

## TECHNICALITY .. BARS .. DECREE

Reconciliation Delays Film Star's Divorce Suit

Carmel Myers

**TECHNICALITY** proved an obstacle in the path of Carmel Myers, motion-picture star, who is seeking a divorce from Isadore B. Kornblum, attorney and song writer.

The first divorce case came before Judge Summerfield recently when the question was raised whether Mr. Kornblum deserted his wife in July, 1930, or on May 9 last. It was indicated that the couple became reconciled after the July desertion, which would make the May desertion without the legal period of one year prior to the filing of the suit. The film star's attorney contended that the reconciliation was not in good faith on the part of the husband and that the actual desertion should begin to run from the July date.

Judge Summerfield denied the decree to Mrs. Kornblum without prejudice, which means that she may file a new suit after May 9, 1933.

ELECTRICIANS  
VOTE TO STRIKEDemand \$10 a Day Instead  
of \$8 Now PaidEasterners Plotted Move.  
Assert ContractorsPresent Wage Declared Fair;  
Will Fight Walkout

The International Brotherhood of Electrical Workers, No. 13, voted to go on strike tomorrow at a meeting held at the Labor Temple last night unless the contractors agree to raise the daily wage from \$8 to \$10 and consent to the provisions of "Working Rules and Agreement" as drawn up by the union, according to information reaching the contractors yesterday. There are 153 members of the union.

Adoption and enforcement of the new rules as outlined by the local union would be a virtual closed shop, according to H. B. Woodrill of the Woodrill-Patterson contracting agency.

According to information reaching the contractors late yesterday, 50 per cent of the electrical workers voted for the walk-out on Saturday.

**PLANS NOT REVEALED**  
Definite plans of the union could not be learned at the headquarters at a late hour yesterday. The union refused to discuss whether there had been a meeting at which it was decided for the strike or not.

There is absolutely no reason for this contemplated strike, Mr. Woodrill declared yesterday. The electrical workers are getting more here than any other place in the United States. I am confident that the majority of the workers are not in favor of the strike but they are voting for it in the hope that an arbitration board would be appointed and it might result in a higher wage of some kind. The men may go on strike as far as we are concerned. It won't tie up building here at all. There will be so many electrical men applying for jobs that police will be necessary to keep them away.

**WON'T INCREASE PAY**  
The contractors at the Biltmore Hotel stated that they will not increase the wage of the electrical workers there. All of the contractors in the city are sure, they will be so much in a demand upon the part of the men, who are given the best of conditions to work under.

The contractors in Los Angeles are paying more to their men than the county and city give their electrical workers. The city and county employees receive \$7 a day.

According to Mr. Woodrill, the contemplated strike was precipitated by two men from the East. "The Working Rules and Agreement" as drawn up by the union contains twenty provisions. It was given to the various contractors in Los Angeles on the 10th inst. According to Mr. Woodrill, the agreement has not been signed by any of the contractors.

**DOUBLE PAY ASKED**  
One of the most important provisions in the agreement asks for double pay for overtime. Under the present system the men are given time and a half for overtime. The agreement asks that six holidays in the year be observed and that Saturdays work conclude at noon.

The contractors in Los Angeles are not organized for business purposes, such as fighting a strike as a unit, according to Mr. Woodrill, but they are organized to fight individually. Mr. Woodrill stated that the contractors were unanimous in their opposition to the demands of the electrical workers.

**PRINCE HERE TO  
STUDY PICTURES**  
(Continued from First Page)

value and a real grasp of essential dramatic values. Prince Sasha declared that with the knowledge of the American industry applied to the background of European stories it would be very difficult for American producers to cope with those of the continent.

**ART FOR ART'S SAKE**  
"American films are essentially love films; they have a touch of the dramatic, but sacrifice much because of the desire for a happy ending. In Europe it is different; the people regard it as art for art's sake and the ending faithfully follows the original story."

After viewing the "Merry Go-round" set on the Universal lot, Prince Sasha stated that the reproduction was true in every detail.

While the Prince's visit here remains indefinite, he will co-operate with Universal officials in an advisory capacity on Old World pictures. His knowledge of European tradition and history will make him invaluable in arranging sets, Mr. Thalberg stated. That he would probably participate in some of the forthcoming picture as a character actor was intimated by the Prince and officials of Universal.

**ADMIRES FILM PEOPLE**  
"I have a great admiration for the American film people. The majority are real artists. The Prince stated, 'While I might not, of course, I do not expect to attain such heights as most of them. My prime objective is investigating the American industry with a view to ultimately forming a great European and international organization with headquarters in my home country. We have the background, we have the people, we have the brains; all we need is determination and a knowledge of the finer points of the game and the American method of work.'"

Prince Sasha, when introduced to Fricke, head of the Universal star, complimented her on her work and confessed that he was one of her admirers.

While here the Prince will be the guest of Carl Laemmle of Universal City, Irving Thalberg and Malcolm B. Boylan, publicity director. Accompanying the Prince from New York was Herbert N. Farnham, dramatic editor of the Masonic Review, who will return to Czechoslovakia with Prince Sasha to aid in the formation of the new industry.

CITIES TO GET  
FINES OF WETS

(Continued from First Page)

drive bootleggers into the smaller cities which, operating under the clause of the Wright Act, could inflict only \$500 fines. However, it was pointed out that in Federal and State courts the \$1000 is only required for manufacture and sale while transportation and possession are the commonest charges, and that the small city judges by inflicting their maximum of \$500 usually could make the penalty as grave as in the Federal and State courts.

Several of the chiefs of police present, who said they were driving Ford, wanted to know whether their city courts could not confiscate automobiles as the Federal courts do, but Mr. Burke, who has made a special study of prohibition law, said they could not, if for no other reason than because the automobiles would exceed the limit in value of the smaller court's jurisdiction.

"They are making whisky in the hills and peddling it like milk on routes in the towns," said Chief of Police Kelley of Pasadena. "It is easy to detect a still in the city because of the smell."

**SUPERVISOR'S IDEA**  
Henry W. Wright, County Supervisor, suggested that the District Attorney's office investigate and prosecute independently of any municipal action, saying that funds paid into the county treasury would benefit the cities indirectly.

But Mr. Woodrill, who declared his willingness to undertake any investigation and all prosecutions, thought that he would become a chief of police if he tried to cover the whole county with special agents, and Chief Kelley of Pasadena ventured the prediction that the District Attorney would have to trouble his deputies and have at least 500 special investigators to do it.

Mr. Woodrill held that under the Wright Act the cities had a right to arrest and prosecute and that interference in the field without request or charge of failure by the city authorities would be resented and defeat the operation necessary to general enforcement. The representative of every city agreed to call on Mr. Woodrill for aid if the city police could not make the arrest, and several cities already have employed outside aid because their police detectives are too well known to the bootleggers and cannot make the necessary purchases.

The District Attorney said he would furnish special investigators wherever requested. All the cities expressed a preference to operate under their own ordinances as far as they could and thus increase the income from the fines, but Mayor Irvington of Pomona said he would be glad to have the District Attorney's men come in and do all the work.

**PLENTY TO DO**  
"You must remember that the police have other things to do besides running down bootleggers," he said. "They still have robberies, automobile infractions, etc., and with the same size force. We will do all we can, but what we want is to run the bootleggers out and we do not care if we do lose the revenue from the fines, if only it can be done."

Several of the mayors and chiefs of police expressed themselves as not at all resenting any special investigations by the county if any group of citizens thought their home officials were not vigorous enough, and all said they would call for help whenever their own men failed to get evidence of any known groups of bootleggers.

Chief Kelley proposed a resolution that all the city officials present express confidence in the District Attorney's eagerness to co-operate in enforcing the prohibition laws, and this was adopted unanimously.

Others present were Chief of Police Yancy and L. E. Christenson, superintendent of identification, Long Beach; Mayor Berkley, and Chief of Police Webb, Santa Monica; Mayor Robinson and Chief of Police Fraser of Glendale; A. B. Chambers, Constable of Pomona; W. D. Green, City Trustee, and Chief of Police Ballou, Whittier; Chief of Police Lyter, Pomona; Capt. Jesse H. Hunter, chief of investigation, District Attorney's office; Edgar C. King, detective sergeant, attached to the District Attorney's office, and Assistant Chief of Police Hill of the city of Los Angeles.

**DEATH CALLS  
JUDGE HUBBELL**  
(Continued from First Page)

the name of the Spring and Sixth Street Railroad Company. Judge Hubbell was chosen president. Upon the absorption of this company by the Los Angeles Cable Company, he assumed a directorship in the larger organization. He became, also, the president of the National Bank of California. Associated with Dr. Howard and other educators, Judge Hubbell helped to found and organize the University of Southern California, which he served as a member of the board of directors, later becoming treasurer of the board. Intensely interested in the welfare of the city, he became a park commissioner thirty years ago and supplemented his personal service by presenting to the city the site of the present Westlake Park.

**WAS RETIRED**  
Twenty years ago Judge Hubbell retired from active business and since that time had been living quietly with his family in the Arapahoe-street home, which he built in 1903. Until a few days ago, his health had always been excellent. Last Sunday he was taken for a long automobile ride and also attended services at the Immanuel Presbyterian Church of which he had been an active member for thirty years. Judge and Mrs. Hubbell had been making preparations for the celebration of their golden wedding next February.

Judge Hubbell was an active figure in local Republican politics for many years. He was a member of the California Club.

Besides his widow, Mrs. Lora A. Hubbell, Judge Hubbell leaves one son, Charles E. C. Hubbell, and two daughters, Mrs. William F. Jeffries and Mrs. Mary H. Graves, all of Los Angeles.

Announcement of funeral services for Judge Hubbell will be made later.

**T**WENTY-ONE families were served for thirty days with three kinds of bread—one a poor grade, one average, the third HOLSUM. They weren't told of the difference. But each day the waste bread was carefully checked.

The waste of the poor bread was tremendous; that of the average grade scarcely less so, while that of HOLSUM was practically nothing. Instinctively these families ate 92 per cent more of the highest quality bread—HOLSUM—than they did of the cheapest grade. They were better fed and better satisfied.

The waste of the ordinary bread more than equalled the slightly higher cost of HOLSUM, without taking into account the difference in food value.

Unconsciously these families proved that

### STRANGLER LEWIS THROWS ZBYSZKO AND RETAINS GRAPPLING TITLE

#### POLE WINS FIRST RIVAL AND THEN WEAKENS

Headlocks Enable the World's Champion to Nail Former Title Holder

(BY A. P. NIGHT WIRE)  
 LOUIS (Mo.) Dec. 14.—Ed "Strangler" Lewis retained his heavyweight wrestling championship of the world by defeating Stanislaus Zbyszko, two out of three falls here today. Lewis won permanent possession of the title, as he has been victorious in three contests in the past year.

#### GRELLA IS LOSER TO ALLEGRI

Joe Pimental Takes Win From Manuel Martinez in Feature Bout

Ad Allegri took a well-earned decision over Johnny Grella after three rounds of torrid fighting in the main event of the Los Angeles Athletic Club fights in the club gym last night. Allegri had a little the better of the affair all the way, but Grella was always trying and made it hot for the L. A. A. C. scrapper. Grella's face looked like a beefsteak at the end of the battle.

Joe Pimental and Manuel Martinez put up a fine battle in the semi-main event of the night. Pimental landed several hard punches and Grella was badly hurt. Pimental won by a knockout in the third round.

ADDRESS ADVENTURERS  
 Stanley R. Graham, millionaire Chicago sportsman, addressed members of the Adventurers' Club last night at the City Club. He told about his experiences as a sportsman in Mexico. An election of officers was to have been held last night, but the unexpected arrival of the speaker caused the election to be postponed until next month.

#### SPEEDBOATS ON THEIR WAY HERE

Miss America II and Miss Detroit IV, owned by Garwood of Detroit, and the two fastest speed boats in the world, left Detroit on the 11th inst., over the Union Pacific system for Los Angeles Harbor. Both go-fasts will be entered in the special Gar Wood series, to be run off in the port's outer harbor on the 29th, 30th and 31st inst.

The two motorboats, both of which helped America gain the Harmsworth international trophy, are being chaperoned across the continent by E. V. McClelland, one of Mr. Wood's henchmen in the speed game. Mr. Wood and his party are due in this city next week.

#### OBSERVATIONS BY THE INNOCENT BYSTANDER

BY W. M. T.

Now that it's all over it might be mentioned that local football followers came within whisker of seeing the greatest prep gridiron eleven in the country in action at Pasadena. Negotiations which have been in progress for the past three weeks finally collapsed a couple of days ago and it is therefore no violation of confidence to tell about it.

The proposition was to bring the famous Kikimatas Academy football team of Pennsylvania to Pasadena to meet the Occidental freshmen, "pea-green" champions of the Southern California Conference. Incidentally Stanford has been angling for the great unbeaten prep team to play a preliminary to the Stanford-Pittsburg game and for all we know they may yet come through to play at Palo Alto.

The name of Kiski doesn't mean as much to gridiron rovers in California as it does in the East, but this Pennsylvania prep school is the original source of all-American football players. Among those who have graduated from Kiski to national prominence might be mentioned, Tom Davis, Pittsburg captain last year; DeHart, Bob Peck, Andy Hastings, Herb Stein, Tommy Hollister, all Pittsburg captains, the mighty Mr. Rock of Princeton, Newish Bentz, captain of Penn State this year, Russell Stein and several others of last year's W. and J. eleven.

If that doesn't sound convincing enough one might cite the record of this year's aggregation, which is forced to play the freshmen teams from the near-by colleges because of the unwillingness of prep schools to tangle with them.

Kiski, 28; Burns, 0.  
 Kiski, 55; St. Francis, 0.  
 Kiski, 40; State Normal, 7.  
 Kiski, 20; W. Virginia, fresh, 0.  
 Kiski, 31; Penn State fresh, 0.  
 Kiski, 31; Cornell fresh, 0.  
 Kiski, 12; Pittsburg fresh, 0.  
 Total Kiski, 217; Opponents, 7.

One of the big secrets of Kiski's remarkable success is in the coach, Jim Marks by name, who has an unbelievable record of victories extending back for years. Marks has been fitted with by every big college in the country and was one of the coaches on whom Stanford cast an envious eye just before the Palo Alto game landed Pop Warner of Pittsburg. He seems wedded to Kiski, however, and confines his college activities to conferring with Pop Warner of Pittsburg and Gil Doble of Cornell whenever they need a little help and then beating the wading out of their freshmen.

While nobody would stoop so low as to suspect Stanford of being anxious to land some of Kiski's star players for next year one might, without casting aspersions at anybody's motives suggest that perhaps Pop Warner would like to divert the stream of Kiski football demons from Pittsburg to Stanford inasmuch as he is to be at Palo Alto two seasons hence.

Captain and Fullback Ames is the bright and shining light of the Kiski team, being one of those happy-go-lucky persons to whom dashing off 80 yards to a touchdown is no more trouble than dashing off a letter to a pauper for more money. In the game against the Pittsburg freshmen Ames scored all the points, plunging over tackle for the first touchdown and running 85 yards through a broken field for the second. He weighs 175 pounds and does the punting, rook-kicking and nearly everything else.

From a glance at Kiski's record it may be presumed that the Occidental Cubes had quite a crust to consider tackling the Eastern demons, particularly after what they did to such undoubtedly strong outfits as the Penn State, Cornell, West Virginia and Pittsburg freshmen.

### Coffroth to Make Huge Bid for Dempsey-Willard Bout

Stanford Expects to Put Up a Rare Fight Against Pittsburg Team

No Sorrow Dims the Brow of Andy Kerr of Stanford  
 Far from it. Not only did the Cardinal coach have a fine season with the big Red team but he stands a good chance, according to some folks, of obtaining one across the Pop Warner of Pittsburg when the two eleven's tangle at Palo Alto on December 30.

#### HIT PENNANT BUYING

Magnates Babble Merrily at Meeting in Dear Old New York

(BY A. P. NIGHT WIRE)  
 NEW YORK, Dec. 14.—Major League baseball magnates in joint session today jammed the brakes on late season sales and deals and thus checked for a time at least, the outcry against the "buying of pennants." This was accomplished by the passing of a rule which prevents the transferring of players from one club to another in the major leagues without waiver process after June 15. Hereafter such deals were possible up to August 1. Under the new regulation the manager of a team which by June 15 is not a strong pennant contender cannot increase the playing strength of his club except by purchase of (tofore have been shunted back to the minors unless they flashed sterling form during the first month of the pennant race. An effort to increase the maximum number of players permitted any one club previous to June 15, from forty to fifty, was lost after the (Continued on Second Page)

STANFORD UNIVERSITY, Dec. 14.—Coach Kerr led his Stanford squad of footballers through their first dry practice in two weeks at Palo Alto this afternoon. The rain which has been of fifteen days' duration continued intermittently this morning, but stopped during the latter part of the day, and blue patches in the sky indicate there may be several clear days before the clash with the University of Pittsburg team, December 30.

ON THE JOB  
 Practically all of the first string players were in evidence this afternoon, though Capt. DeGroot and Art Wilcox were not in uniform. Norman Cleveland, the fullback who played through the California game with a balloon knee was in grid togs and doing his regular stuff. Fred Laddie, the giant guard, is not out and has not been since the Blue and Gold fracas. He feels that studies must be given present attention, and it is probable that Cravens and Pavlic will do the bulk of work at the guard positions.

Though DeGroot will probably be ready to go when the gun sounds for the kickoff the 50th inst., Line Coach Tiny Thornhill is giving a great deal of attention to Baker, the young substitute who went in for the captain in the Washington game. It is altogether probable that Baker will get an opportunity to oppose the famous Bowser, Pittsburg's candidate for All-American at center when the two teams clash at Stanford.

Stanford fans fully expect DeGroot to hold his own with the Pitt pivot man. DeGroot has far outdone any Coast center this season. He is twenty-five pounds heavier than the Panther, and he will not be handicapped in any way as two strong guards, Pavlic and Cravens, will flank him to help out.

WINE THE MONEY  
 (BY CABLE AND ASSOCIATED PRESS)  
 PARIS, Dec. 14.—N. E. Ambrosios, Greek shipowner, leads the French turf in the amount won by his horses for the season of 1922. His total being 2,412,000 francs.

### TIJUANA MAY GET BATTLE

Sunny Jim Likewise Casts Eyes at Yank Park in New York

BY ED O'MALLEY  
 Joy of a three diamond special flavor reigned supreme in the Dempsey-Kearns theatrical camp yesterday afternoon. The two Jacks were surrounded by a coterie of admirers and not a son of a gun present could be indicted for figuring in marks. A millionaire atmosphere seemed to pervade the party, and it was all consequent on a little measly hint covertly dropped by Kearns about one Sunny Jim Coffroth.

Kearns would not affirm or deny that Jim had cast an envious eye toward the Willard-Dempsey prospective tilt at arms, yet he let loose enough for us to get busy with our subconscious self (we are a devout follower of the great Frenchman, Coxe,) and this is what welled to the top of our coco:

TO OFFER BUNCH  
 Sunny Jim, whom a number of envious racing followers declare cleaned up \$2,000,000 at the Tijuana race track in the last two years, is about to launch an offer for the big imbrolio that will knock the fistic world cockeyed. It transpires in a roundabout way that when Jim flashes his offer it will make that of Tex Ricard look like that of a piker at a Posey county fair meeting. Kearns and Coffroth are very friendly and it is begging the question that Jack would rather see Sunny Jim get the bout than any other big promoter.

In hinting at the subject yesterday afternoon Kearns took on a million-dollar smile, a smile that would even have brought an enticing look from Peggy Joyce. He declared he was not yet in a position to give out details, but would be in a day or so, and qualified his remarks by stressing "it will be a whopper." It is hardly likely, if Coffroth gets the match, that he will attempt to stage it in the Far West. Jim is a financier of rare ability and knows the magic drawing quality of a bout like this near Greater New York. The Tanke grounds in New York City, which would seat close to 100,000 people, would naturally catch the eye of Jim.

#### LEGION QUINTET IS VICTOR IN CONTEST

The strong five representing the American Legion Post, No. 8, trimmed the fast S.B.U.C. Fedals in a County League game played on the latter team's home court last night, 25 to 18. Coach La Melle's squad romped away to an early lead and maintained it throughout the first half. The Legionnaires staged a rally in the last period and led the encounter.

THE SHIRTS ILLUSTRATED ARE OF DAVID AND JOHN ANDERSON'S SCOTCH FLANNEL, AND ARE MADE WITH COLLARS ATTACHED. PRICE \$7.50.

THE CRAVATS ARE FASHIONED IN THE NEW PRINCE OF WALES CHECKS AND ARE LATE IMPORTATIONS FROM ABROAD.

# French Woman Net Champion Is Playing Game of Her Life on Hard Courts

## SUZANNE NOT RETIRED YET

**Temperamental Star Winning on the Riviera**  
**Drops Only One Game During Singles Tourney**  
**Hopes to Crown Molla When They Meet Again**

BY WILLIAM H. MOGAP  
[EXCLUSIVE DISPATCH]  
PHILADELPHIA, Dec. 14.—Mlle. Suzanne Lenglen is not to retire from competitive tennis, as has been reported, until the end of next season. She is playing in the winter tournaments on the Riviera, and from private advice just received from Mentone, A. M. France, she has exhibited remarkable form. She is schooling herself with the possibility of meeting Mrs. Molla Burested-Mallory again at one of the international tournaments scheduled at Nice, Cannes and Monte Carlo. If Mrs. Mallory decides to spend the winter on the Riviera, she will find the French girl ready to give her a match at one of the three tournaments named.

Our informant, John R. Tunia, a young college student wintering in France, says: "If proof of the fact that Suzanne Lenglen was playing as well as she ever has played were needed, it could be found in the recent tournament held by the Marseilles Tennis Club at Marseilles. This tournament, the first of the long series up and down the coast, took place last month, with most of the best men and women players in France competing. The champion won the women's singles in her usual convincing fashion. Indeed, her play was as powerful as it was in the winter of 1931, when she swept through tournament after tournament, defeating the best French and English women players with the greatest ease. Playing at Marseilles in a bad

[EXCLUSIVE DISPATCH]  
S. PAUL, Dec. 14.—With their training steps over, Billy Miske, one-time heavy-weight champion, and Tommy Gibbons, who still seems to entertain similar ambitions, are awaiting the going for their ten-round combat tomorrow night. There will be a decision, rendered by judges and Gibbons is slightly favored to receive same.

## BILL TILDEN COMING HERE

**Tennis Champion Loses More of His Finger**  
**Expects to Start Playing in Early Spring**  
**Will Play in Tournaments on Pacific Coast**

[EXCLUSIVE DISPATCH]  
PHILADELPHIA, Dec. 14.—William T. Tilden, national tennis champion, has undergone another operation on his infected finger, which has virtually removed it to the second joint.

The operation was performed yesterday, more than an inch of bone being removed.

"I am highly encouraged," he said. "I suffered no pain last night and I now believe my finger will begin to heal. A small portion of the bone remains above the second joint and the surgeon says there is a good chance there will be movement in the joint. It is not much, but it ought to help a little when I start to play again."

So encouraged does the champion feel that he is already planning a long trip West next summer.

"I will leave about the last week in June," explained Tilden. "and spend about six weeks with the Pacific Northwest as my destination. This is denied by the fact that he is in the clear and owns the stock. But you never can tell in baseball. The signing of Chance to manage Boston and Houston's retirement from New York may be purely coincidental, but there will be those who believe they can divine in its significance, a portent of possible important developments. At least interesting from a conjectural standpoint."

Sacramento, by purchasing Yellowhorse, pitcher, from the Pittsburgh Pirates, proves that it is willing to experiment with the noble Red Man. This is the second Indian which the Solons have had in their line-up. Some years ago they had House in left field, which is Anglo-Saxon for tape or wickup. He was just a fair ball player, and never threatened the brush with a confederation. There were two chiefs in this league with plenty of natural ability. Vernon had Chief Johnson and San Francisco's dispirited Chief Smith on the Recreation Park reservation. Both were pleasant gentlemen, when not angry. Chief Smith chased Murray, an Oakland catcher, out of the park with a ball bat, but it may have been purely a boyish prank. Murray didn't think so. Chief Johnson was inclined under certain conditions to become quarrelsome with his most ardent friends and admirers. At such times a strange wild light appeared in his eyes. Jim Thorpe lasted quick with Portland last season. Perhaps Sacramento will be more successful. Yellowhorse has plenty of native ability. He will be a novelty because he is the only sorrel Indian ever seen in this circuit. He also should be lucky as each shoe is a horse shoe.

**SPORT SHAPPEL**  
By HARRY A. WILLIAMS.

Bare and unadorned announcement from New York that Col. Huston had sold his interest in the Yankees to his associate, Col. Ruppert, failed to satisfy those of an inquisitive turn of mind.

Ruppert and Huston have been associated in the ownership of the New York franchise for a number of years, and the new Yankee concrete stadium was regarded as a monument cementing this partnership. The two colonels are great fans, each very wealthy, and were generally believed to be on most amicable terms. They seemed to differ only regarding the qualities of Huggins as a manager. Nearly every spring when the New York fans at large were tying the can to the midgest manager, Ruppert was for retaining him, while Huston annually intimated his willingness to make a change. Some regarded this as not a real difference between the two owners, but a diplomatic play to the public. From whatever point viewed, this difference, believed to be the only one between them, never was regarded as serious.

There may be no estrangement between these men who have done so much for the American League in New York. Huston may simply desire to be relieved of the responsibilities of baseball and its interminable wrangles. One, knowing his fondness for the game, and his reputation as a fighter, will be inclined to scout this theory. Can his retirement from the Yankees possibly be a prelude to the purchase of the Boston Red Sox, or the active assumption of that ownership? There have been rumors of the New York club holding Frasee's notes, some estimates putting the figure as high as \$100,000. Still others have expressed the opinion that the New York club owns the Red Sox. This is denied by the latter, and Frasee recently told me Frasee is in the clear and owns the stock. But you never can tell in baseball. The signing of Chance to manage Boston and Houston's retirement from New York may be purely coincidental, but there will be those who believe they can divine in its significance, a portent of possible important developments. At least interesting from a conjectural standpoint."

Judging from what took place at Louisville, Commissioner Landis' domination of the minors is almost as complete as his rule of the majors—with one exception. That's the draft. The pick of the past few years has converted the little fellows that the majors are the sole beneficiaries of the draft, unless one resurrects the rather ancient argument characterizing it as an avenue of advancement for Louisville. But that was not because he had forgotten about it. To have done so would have meant a losing fight. Possibly this is a prelude to other and more subtle methods by the majors. Their new system of attack, if such it is, strikes one as unique in that it is non-aggressive and non-nutritive. A form of blockade or siege, so to speak. To date there has been no made rush of big-league clubs to buy minor league players for fancy prices, or other prices.

**HIT PENNANT BUYING**  
(Continued from First Page)

National League had voted in favor of it and the American against it, when Commissioner Landis voted in the negative. However, major league clubs hesitated to be permitted to have fifteen players out under option in place of eight, but the proposal to permit a player being held under option for three years in place of two was defeated.

**BIG CHANGES**

These were the outstanding changes in the code governing the regulation of the National and American leagues from the standpoint of the fan. Several other changes were made, but they pertained to the technical and legislative side of the game.

There was no discussion of the suggested return to nine games in place of the present seven in the world series and no agreement was reached between the two leagues to open upon the same day next season. As the situation stands at present the National is to begin on Tuesday, April 17, and the American League on Wednesday, April 18.

It appeared to be the general opinion, however, that when the schedule committee meets in February this question of opening dates may be rectified.

**DRAFT RULES**

It was decided that the drafting rules should be amended to permit the drafting season to commence the first day of the world series each year and that the draft meeting shall be held in the city where the first world series game is played. The waiver rules were changed to provide that a club asking waivers on a player and then withdrawing such waiver request must do so within forty-eight hours after notice of claim, or forfeit rights to such player.

It was also resolved that the major and minor league meeting for next year should be held in Chicago the second week of December. Commissioner Landis was empowered, in case of emergency, to call for a mail vote on any matter, thus expediting legislation. The code was changed to provide that on the vote of three quarters of the clubs of the two leagues, any proposition or legislation might be submitted to a mail vote in place of a joint meeting of the two leagues. A joint meeting is called the clubs that respond shall constitute a quorum, but absent clubs may be represented by proxy.

**BECAUSE OF BARE**

The so-called barnstorming situation which resulted in the suspension of Babe Ruth and other players last season was remedied by the adoption of a rule that no player shall participate in exhibition games after October 31 and that all future contracts between players and clubs shall contain this provision.

World series regulations came in for considerable discussion and it was provided that in the future Commissioner Landis and the

## ARTISAN TRACK MEN WARM UP

**Cross-Country Meets the Vogue at Manual**  
**Thomas and Tockle to Run Again This Year**  
**Toilers Have but Few of Lettermen Back**

Track season will officially start at Manual Arts High school on January 5 with a big interclass meet, according to news that leaked out from the Toilers institution yesterday. Right at present the Artisan panty wearers are busily engaged in the long-winded art of cross-country running.

The Manual "over the hills boys" have three meets scheduled before they disband and start doing their work in a regular-sized oval. On January 11 Manual meets the Lincoln cross-country team in a meet to be held over a course in the North Broadway hills. The Toilers clash with the L. A. High squad January 18. Sid Foster is holding an invitational cross-country run for City League teams on January 26 over a course in the hills near the Angeles Mesa Country Club.

**MANUAL HARD UP**

Manual is finding itself pretty hard up for track and field team material this year as they lose several of the star athletes from their last year's squad. Irving Thomas, State half-mile champion; Dick Blewett, winner of the high hurdle race in the State meet last year, and Tommy Towle, another classy stick man, will all three be absent when the track season starts next spring. Knox and Lago, two lesser luminaries, but never the less men that can be counted for without the score of battle.

Blewett graduated last June while the rest depart from the Vermont street school this February. However, Thomas, Towle, Knox and Lago will take part in more meet for Manual before they get their sheepskins. The San Diego affair, which will be staged in the southern city February 8, this meet comes off before the present semester ends.

Femberthy and Pickett, a pair of pole vaulters; Watson and polio vaunter; Watson and Brothers, a fast duo of dash men, and Rogers, in the weights, are the other boys on the Manual hill. The other boys on the Manual hill are: Johnny Kenney and Jockey Welch, 140 pounds; Willie O'Brien, 140 pounds; George Blake, 125 pounds; Harry Carter, 125 pounds; and George Blake, 125 pounds.

**RIVERBIDE WIS**  
[EXCLUSIVE DISPATCH]  
RIVERBIDE, Dec. 14.—Colton High School basketball squad lost to the Riverbide Polys last night on the Y.M.C.A. gym floor here this afternoon by a score of 23 to 8.

## LARRY MURPHY FACES HERMAN

**Boxer Rematched for Main Event Tonight**  
**Three Boxers of Same Irish Clan on Card**  
**Kid Moha to Meet Hackley at Hollywood**

Larry Murphy will once more trade wallop with Pete Herman when the pair clash tonight in the main event at the American Legion Hollywood arena. Murphy carried off the evening's laurels last week by a very close margin, and expects to again be returned the winner tonight. Herman has put in considerable time training for his second match, and according to the handicapper is in far better condition for a real battle than ever before. The Hollywood news has been boasting that tonight he will win, and after four rounds of milling the referee called the affair a draw. Since then both men have trained for a rematch, and tonight's battle will see their wishes gratified. They will weigh in at 113 pounds.

Kid Moha, the Filipino 116-pounder, who has become a popular figure in the Legion ring, has drawn Jimmy Hackley for his opponent tonight. Hackley is pinning his hopes on a victory that he might see to greater heights in the ring game. Moha can always be counted on to win a close fight and Hackley will do well to emerge from the arena without the score of battle.

Red Ulian, the terror of the squared arena, who has been bowling over all rivals, will meet Frankie Murphy, former international welter champion, in four rounds of battle tonight. The bout is programmed for four rounds, but may be terminated earlier, inasmuch as both men are of the "knock-em-dead" type.

The other bouts on the bill will be: Johnny Kenney vs. Jockey Welch, 140 pounds; Willie O'Brien vs. Harry Carter, 125 pounds; and George Blake vs. Young George Blake, 125 pounds.

and Bob Meusel, outfielder, in a deal for Collins and Bob Felt. White Sox outfielder, The Yankees were said to be ready to part with Collins and Felt for Sam Jones, but Chicago insisted upon Hoyt.

**SOME PRICE**

Meanwhile, reports circulated that the Yankees, as an alternative or possibly an adjunct to a Chicago deal, had offered the unprecedented sum of \$175,000 for Shortstop Joe Boley, of the Baltimore International League club, who is declared to be the most sought-after performer in the minors. Manager Huggins of the Yankees reported that he would not be disposed of at all for at least a year were put at rest by an announcement that he had signed a 1932 contract with the Orioles.

Jack Dunn, Baltimore owner, declared he would under no consideration part with Boley for a sum of \$175,000 for his star.

Dunn intimated that the choice

not do these things. And then, to crown everything, while the uproar was at its height, the native on the floor opened one bead and somewhat dazed eye, realized that things looked unhealthy. Unnoticed, he lay "dog-go" for a while; then, like a rabbit which has almost been trodden on, he dodged between the legs of the men in the room, and vanished through the open door. Taken by surprise, for a moment he was peering out of a room opposite angrily demanding the cause of the hideous din.

Had he seen a native—a black man? He had seen no native, and if other people only drank water, they wouldn't either. In fact, the whole affair was scandalous, and he should write to the papers about it. Still muttering, he withdrew, banging his door, and Hugh, glancing at the door, saw the American standing in the doorway.

**MOVIE CITY TEAM IS BASKETBALL VICTOR**  
Smashing their way through the hard-hitting, snappy-playing go of the U.S.A. basketball team, the Hollywood Athletic Club's basketball five defeated the sailors last night, 15 to 10. The game was a fight from the start to the finish. Both teams played stellar ball, but the basketball shooting of DeGraesse seemed to be a big better than that of any of the sailors.

**STEELHEAD TROUT SEASON OPENS TODAY**  
Fishermen are getting their rods and reels and lines out of the dust-covered creels, and preparing for the opening of the steelhead trout season today morning. The fishery is a big one, and the steelhead trout is a big one. The fishery is a big one, and the steelhead trout is a big one.

**Buzukos Says Dempsey Can Defeat Lewis**  
Pete Buzukos, who claims the welterweight wrestling championship of the world, has returned to Los Angeles after an extended eastern invasion. Pete is to take on Eddie O'Connell at the Covina American Legion arena on December 22. He has been training daily and is at present in tip-top condition. Before the feature event, the Legion will stage two boxing bouts and a preliminary wrestling match. Buzukos is firmly of the belief that he can throw O'Connell, but expects a hard tussle.

# NEW GAME FOR MONEY SUSPECTED

With Played "Possum"  
Effort to Get Expenses  
Own Funeral, Charge

At H. Murock, 22 E. 10th St., the "poorman" to get money, according to police, and as a result was held at the City Jail on charges of obtaining money by false promises and device. Murock's wife, Mrs. Murock, is a widow, 40 years of age, and her brother and father-in-law, both residing at Coleman, Wis., are suspected of assistance in having letters to both his father and brother announcing his own death, and that funds be paid out here for his burial and payment of medical expenses incurred during his death. The letters, signed "L. Murock," were signed by Dr. L. Thrall. "The letters were mailed to the young man last to have him read them," said a police officer. The brother, who is a doctor, lives at 10th St. and the receipt of the letters came here from the City Jail, Salt Lake City. He found them in style and was very much alive and well at the time they were mailed. Murock's father-in-law, Dr. L. Thrall, lives at 10th St. and the receipt of the letters came here from the City Jail, Salt Lake City. He found them in style and was very much alive and well at the time they were mailed.

**UNION MEN ASKED FOR CASH FUND**

Circular Shown at Trial of Needles Strikers Calls for Defense Money

The secret of the defense fund of the Needles strikers, now on trial before Judge Bledsoe and a jury in United States District Court, became known yesterday when a circular sent all over the Coast lines for financial assistance was produced. The circular stated that members of the B.L.E. and others had been indicted, and asked for contributions of \$10 or more from each individual.

The circular was signed by D. H. Ralston, switchman; R. B. Jackson, and J. R. Jackson, engineer. It said the men were under moral obligations to assist the defendants, and that Defense Attorney J. Ed. Rush's fee would be \$5000. The defense could not rely upon union funds, as the strike was unauthorized.

H. H. Clements, one of the defendants, could not remember yesterday, on cross-examination, how he figured his efforts to get pumpers to quit work would not injure the railroad. A telegram he sent to an official of the Railroad Clerks' Union, suggesting the Needles strikers be called out, was sent for the benefit of the clerks, he said.

B. E. Crayne, general chairman of the B.L.E., said he was sorry the strike was called. He admitted he approved a telegram from Warren S. Stone, grand chief of the engineers' organization, urging the men to respect their contracts. The defense then rested, to the surprise of everybody, who thought that all of the defendants would be placed on the stand.

Rebuttal witnesses were called by the government. The first to respond was Herbert S. Wall, mechanical superintendent of the Santa Fe, who said that at the time of the shopcraft strike on July 1, last, the mechanical equipment of the road was first-class in every department, both as to engines and rolling stock. He detailed the program carried on by the road, for the betterment of the road's equipment, and declared that at the time of the Needles strike, there was no fair ground for complaint for insecurity in its operation.

It is believed now that the case will go to the jury next Tuesday.

**Vitagraph and Pathe Combine, Report in East**

A deal is pending to combine the Vitagraph Company of America, the Pathe Exchange, Inc., and one other large producing and distributing motion-picture corporation, said a dispatch yesterday from New York. The report, originated in Wall-street circles.

W. S. Smith, vice-president of the Vitagraph Company of California, said yesterday he had no confirmation of the report, but that such a deal had been contemplated, five companies having made offers to consolidate.

The plan proposed is said to be mutually profitable, since Pathe would handle all the distribution, and the other two firms confine themselves to production.

The New York dispatch added that the booking corporation of Vitagraph had pledged \$100,000 for its fight against the established theater circuits. The Vitagraph company recently began an action at law for \$5,000,000 against the Famous Players-Lasky, on the ground that Vitagraph products were denied entrance into many theaters because of Famous Players-Lasky control of a majority of first-run houses. It is said that in addition to the New York organization of Vitagraph in this fight, campaigns are under way in Chicago and St. Louis.

**Enlargement of Home for Morons Urged by Lions**

Contending that the colony for feeble-minded and epileptic persons at Agoura, created by an act of Legislature in 1917, should be expanded to care for at least 2000 patients, members of the Los Angeles Lions' Club at yesterday's meeting in the Alexandria passed a resolution urging action on the project. The resolution was offered by Dr. W. V. Goodfellow, chairman of the civic committee. The resolution declares that about thirty persons are being cared for at the institution, and that \$124,000 of the appropriation provided for the institution remained unexpended because of the building of the institution was started, the resolution asserts, but was stopped because of insufficient water facilities.

"There is a dire necessity for an institution of this class as there are hundreds of feeble-minded persons and morons who are now wards of the Juvenile Court in Los Angeles county, not to mention those in surrounding counties," reads the resolution in part. It also asserts that there are now sufficient water facilities to warrant proceeding with the construction of the institution.

The resolution received the unanimous endorsement of the organization.

**BOYLE HEIGHTS TO GET NEW FIRE HOUSE**

In order to enable the city to construct a new fire house at First and Chicago streets, in the Boyle Heights district, to cost about \$40,000, Fire Chief Scott has moved engine company No. 2 temporary quarters at 2124 East First street.

The old fire house will be torn down. When the new house is completed, the present quarters will include one new motor-driven truck and one motor-driven engine. This fire house is the first to be built under the \$1,000,000 bond issue voted in November.

**THE ARISTOCRAT OF PHONOGRAPHS**

Exquisite beauty added to utmost worth—such is the famous Sonora. Year after year Sonora's makers have striven to better the high standard set at its beginning. Wherever development was possible they have not ceased to improve

*The Highest Class Talking Machine in the World*

**Sonora**

CLEAR AS A BELL

THE SONORA of today—as presented in the new models shown on this page—is a greater instrument than the Sonora which won highest score for tone at the Panama-Pacific Exposition.

Playing the same record, some phonographs are so sharp and shrill that one's ear-drums vibrate almost painfully, while some go to the other extreme and are dead, weak, or sound as though played in a barrel, so noticeable are the unnatural overtones and reverberations.

These objectionable effects cannot be created on the Sonora. The patented Sonora sound box, tone arm and laminated all-wood horn, designed according to the correct basic principles of sound waves and acoustics, refine and make clear and sweet sounds of high pitch such as piccolo tones, harsh bass notes, and those of the middle register which frequently reproduce unnaturally on other phonographs.

One of the most important of these factors contributing to Sonora's tone is the scientific design and substantial construction of the Sonora amplifier. Unlike the thin, flimsy horns found on some phonographs, the Sonora all-wood laminated amplifier is made of from five to fifteen thick, cross-banded veneers, impervious to climatic changes, and incapable of opening up or cracking.

Gabrielle D'Arley Returns, Accuses Latest Husband of Embezzling \$2000; Money a Gift, He Says

Gabrielle D'Arley came back yesterday to the city where seven years ago she slew her sweetheart, Leonard Topp. She returned to cause the arrest of her husband, Bernard J. Melvin, for the asserted embezzlement of \$2000 from her.

"All men are beasts," she said at a notice that she was married happily and starting a new life in the traditional vine-covered cottage.

Since that time she dropped from notice. Yesterday she appeared again in the limelight when she had her husband arrested.

"Gabrielle called herself the plaything of men when she was on trial for killing Topp," said Melvin in the County Jail yesterday. "She still is—but she makes them pay. She's wealthy and has thousands in the bank. I didn't steal that money from her. She gave it to me. We loved each other once, but we're through now, and she hates me. She hated Topp and she killed him. I'm in jail. The man pays, I guess."

After her acquittal she went to Arizona, where word drifted back that she had resumed her former mode of living. But she reappeared in Los Angeles in 1915 to attempt suicide. He declared that her statements connecting him with the shooting caused him mental suffering.

**G. B. WHITELEATHER SUCCEUMS TO INJURY**

SUPERIOR-COURT CLERK DIES AS RESULT OF ACCIDENT ON STREET CAR

As the result of an injury received several months ago in a street-car accident, George B. Whiteleather, eleven years a clerk of the Superior Court, died early yesterday morning at his residence, 152 West Sixteenth street.

Mr. Whiteleather became a clerk of the court in 1911 and recently was in Judge Shen's court.

For several weeks he has been unable to leave his home because of effects of an injury, which affected a leg.

Funeral arrangements have not been completed.

**Wife Who Was Shot Divorced by Her Husband**

Day B. Orton was granted a divorce from Ruth B. Orton on his cross-complaint by Judge Parker yesterday. This closed a chapter of a story that had much of mystery in it.

In June, 1921, Mrs. Orton was found with a bullet wound in her breast. She was taken to a hospital, where she made the statement that she had shot herself. Subsequently she confessed that her husband shot her, but that she had sacrificed herself to save him and to save him from the consequences of his purported act.

She was sent away for treatment. Upon her return from the institution she reiterated that Mr. Orton had fired the shot. Then she sued for divorce. Mr. Orton in an answer declared that Mrs. Orton had shot herself in an effort to commit suicide.

**Price Correction of Gude's Shoe Advertisement which Appeared in The Times Illustrated Magazine Sunday, December 10**

By an oversight in The Times Composing Room the price of the Shoe Item, No. 1160, described as Black Satin, Baby French Heel was inserted at \$1, whereas the correct price, as indicated on the copy supplied by Gude's, is \$12. Inadvertently the figure 2 was dropped off in setting the advertisement, hence the error.

**The Times Illustrated Magazine**

**Get Back Your Old-Time Vigor Here Is the Way—Says Science**

Strength, Vim, Vitality Restored by Lyko, the Great General Tonic.

Proved in Thousands of Cases

Mr. W. L. Lawler, a well known citizen of Northern Alabama, reports an experience which will interest everyone who is in an ailing, weak or generally run-down condition. Mr. Lawler writes:

"After using the wonderful tonic, Lyko, I have received more benefit from it than any other remedy I ever used. I say that this is one of the greatest tonics for vitality, digestion and the liver; a general re-builder for run-down persons. It has made me an entirely new man at the age of 56. I feel like 30 today."

The power of Lyko to keep a man fit is also well proved by the experience of Mr. H. Jenkins, of Chicago, who says: "My business keeps me constantly confined to the office and at a desk all day long. As a result, my system became unbalanced. I was always tired, rested poorly at night and grew nervous and irritable. I began using Lyko and now I am in fine shape again. Feel cheerful, and am able to do much more work without fatigue or nervous strain."

An Oklahoma man, Mr. Gallion, also tells about the help Lyko gave his wife after other remedies had failed. His letter says: "The wonderful relief Lyko has given my wife, who has been taking all kinds of medicine, which did no good. I saw Lyko advertised and got it and it is doing her lots of good."

Mrs. Dennis, of Mississippi, writes: "I have been taking Lyko and have found it the best medicine in the world for indigestion."

Lyko gives its beneficial effects through the action of its pure medicine.

**Service**

Installer, stenographer, salesman, operator, lineman—these five and over 6000 more in varying lines of activity are devoting their time and efforts to the telephone service of Los Angeles.

What have they done this year to date? They have completed 81,420 installations, with a net gain of 25,200 telephones. They have handled and placed 156 carloads of telephone cable. On poles and in conduits they have strung thousands and thousands of miles of wire. Additional buildings have been erected and old ones enlarged. A tremendous amount of inside equipment has been set up in our twenty-nine central offices. They have answered in excess of 400,000,000 telephone calls. They have taken care of the vast and complicated routines demanded by these activities.

In most lines of industry the work of the designer and engineer is at some time completed, the product finished, but in telephone construction—never. Our forces have had to study, build and prepare for the inevitable demands of the future while meeting those of today.

At the beginning of the year this company announced a construction program calling for the expenditure in 1922 of \$9,000,000. In the first ten months of the year expenditures were made in the amount of \$11,772,659. The total amount for 1922 will approximate \$13,500,000. Early in the year the company made certain commitments to the authorities with reference to its plans and every promise is being kept.

To the telephone users of Los Angeles, the loyalty, efficiency and team work of these 6600 men and women mean an assurance that their telephone service will be maintained and improved.

**SOUTHERN CALIFORNIA TELEPHONE COMPANY**

## JAIL PRISONERS IN RIOT

Men in Tanks Wreck Furnishings, But Police Conquer; "Wobblies" Believed to be Leaders

Rioting prisoners at Lincoln Heights Jail, in a demonstration believed to have been fomented by "Wobblies," wrecked the contents of six "tanks" yesterday and gave the police nearly an hour's work in suppressing the disturbance. With an iron coat for a battering ram, the prisoners in one "tank" smashed away at their bars and nearly succeeded in breaking through.

Those in other tanks tore up their bedding, smashed toilet bowls and other furnishings and waved red bandannas through the bars as symbols of revolution. More than 100 prisoners, of whom fifty were "wobblies," took part in the riot. The automobile-speeding prisoners, who are confined in the new wing of the jail, were not involved.

**RIOTING IS BEGUN**  
The riot started in Tank 9, which contained sixty-three men, shortly after the dinner hour, according to Capt. McClary, in charge of the Lincoln Heights division. There had been growls and complaints about food and jail conditions for several days, Capt. McClary said. He declared himself convinced that the "wobblies" had been the agitators.

The "wobblies" took rather less part in the actual demonstration than the others, following what the police declare is their usual custom of starting trouble and getting somebody else to finish it. From Tank 9 the riot quickly spread to Tank 4, containing nine men; Tank 11, containing thirty-five men; Tank 7, with twenty-five men; and Tank 8, with twelve men, in all. Yells and howls started the trouble, and in a moment the prisoners were tearing loose their iron coats from the walls, upsetting their drinking water and sloshing it through the bars, pounding on the tank walls with pieces of destroyed furniture and making all the noise and disturbance possible.

**BATTER AT DOOR**  
In Tank 11 twelve men seized an iron cot and began to batter the tank door with it. Several bars of the door were beginning to yield when the police got the riot under control.

Capt. McClary, Lieut. Hoover, Chief Jailer Long, Assistant Jailer Linahan and Officers Boldridge and Box were present when the riot started. Sending in a call to the Central Station they seized clubs and began a counter-offensive.

The call for aid brought Capt. R. L. Heath from the Central station with a squad, two wagon loads of officers from the Detective Bureau, and a squad of police from the Boyle Heights station. By the time these forty or fifty police arrived

## TWO SAW OUT OF CITY JAIL

While sixty prisoners in the City Jail quietly looked on, Paul Freeman, aged 35, and Jerry Carlton, aged 26, serving sentences of 150 days and 180 days, respectively, sawed their way through a barred window early yesterday morning and escaped.

The jail-break was discovered at 8 a.m. by Assistant Jailer Charles Norris. One of the prisoners who watched the escape had covered the hole in the window with a coat to prevent earlier discovery. An investigation was ordered by Chief Assistant Jailer Fisher.

The window through which the two prisoners made their exit is on a level with the top of the bunk. Under the bunk were found four hatch saws, a pair of pliers, a pair of pliers and a stout, short-handled knife.

After sawing the bars and bending them upward, Freeman and Carlton crawled into an airshaft and dropped to a porch over the old Central Station stable. They climbed from the porch through a window into the lavatory and walked through the main corridor out the front door to First street without being detected.

Freeman was arrested on November 14, last, by Officers Reeves and Van Aiken for violation of the Gardner ordinance. Carlton was arrested on November 20, last, by Detective-Sergeant Harris on suspicion of burglary. The charge later was reduced to petit larceny. He was found guilty and sentenced to 180 days in the City Jail.

Both men were detailed to duty as waiters in the police kitchen. They were last seen by jail attaches at 9 p.m. Wednesday. It is believed that the hatchsaws were smuggled to them Wednesday night. Sixty prisoners in the tank, all serving sentences for misdemeanors, were questioned yesterday in an attempt to check up details of the escape.

## JAIL BREAK SCARE STIRS COUNTY JAIL

But It Was Only Two Workmen Sawing Bars; Bailey Experiments

Jail breaks, while frequent in the last two weeks, have not become a public spectacle, despite the excitement which seized a crowd of 200 persons yesterday afternoon when two workmen were observed sawing the bars of windows on the third floor of the County Jail.

The workmen were cutting a square hole and throwing out debris to make room for an extra tank. Scores of persons who viewed the work from Buena Vista street thought another escape was in progress and swamped Mark Bailey, jailer, with telephone calls.

Bailey took advantage of the bar-cutting incident to discover how far the sound of the hatchsaws could be heard. He found that the noise could not be heard ten feet distant when the bars and saws were coated with soap. Bailey thinks Clara Phillips may have taken advantage of the soap trick in making her escape. It required less than three minutes to saw one bar.

## GOVERNMENT TO SELL FIVE LIBELED AUTOS

Dep. U. S. Marshal Menick will offer at the Federal Building today four Ford automobiles and one Hudson, libeled under the national prohibition law. The United States Marshal now has in his keeping more than 100 automobiles, all in various stages of litigation, that finally may culminate in their public auction to the highest bidder.

U. S. Marshal Menick is at the Federal Building, 10-11 South Hill street.

## GRAHAM TELLS PORT'S GROWTH

Los Angeles' Development  
Fastest in Country

Pacific Mail Forced to Put  
More Ships on Run

Another Passenger Liner to  
East Coast Likely

Los Angeles Harbor is the best port on the American continent for shipping interests because the metropolis that it serves is the fastest-growing industrial and residential center in the country, said Thomas A. Graham before he returned to San Francisco yesterday.

Mr. Graham, one of the biggest figures in Pacific commercial circles, is vice-president and general manager of the Pacific Mail Steamship Company. He has been here this week on business for his company, but most important to Los Angeles was his message of self-optimism.

"Our intercoastal freight service is centering around Los Angeles on this coast," said Mr. Graham, "and the cargo offerings via this line have become so heavy, both eastbound and westbound, that we have been forced to add two new liners to the run—the Santa Rosa and Santa Barbara."

**NEW YORK TERMINAL.**  
"The Pacific Mail has just secured a splendid new terminal at New York, moving from our old berth at Pier 45, Manhattan, to Pier 32, Manhattan. We will hereafter be able to offer the best facilities to shippers from every port as Pier 32 is in the heart of the New York wholesale district."

Trans-Pacific trade, both foreign and passenger, will hold very strong, Mr. Graham said. America can trade in the Orient in the midst of a great expansion, he declared, adding, however, that there is a possibility of slackening in imports on account of the heavy duties to be levied by the new import tariff.

"The Pacific Mail is very well pleased with the support that has been afforded by Los Angeles merchants," continued Mr. Graham.

**EXPECT SUPPORT.**  
"We expect that sort of support as a result of having given the port the most frequent sailings and the best terminal facilities of any port on the Coast."  
Passenger traffic in the Pacific Mail's New York-Los Angeles service has become so heavy that another fast passenger liner may be added this winter, Mr. Graham indicated. The crack steamers Venezuela, Colombia and Ecuador are at present operated on the run.

At daylight next Monday the Venezuela will arrive from the north to take on passengers here for the East Coast while the Pacific Mail liner Ouba will also come in from San Francisco to load passengers and freight for Central American ports.

**VENEZUELA BOOKED.**  
Clay Hutchinson, Southern California manager for the Pacific Mail, announced last night that both passenger and freight accommodations for the Venezuela have been booked full with a large number of passengers on the waiting list.

On the 31st inst. Mr. Hutchinson announced, the liner Ecuador will arrive from New York via the canal with nearly eighty passengers and a big freight shipment for Los Angeles.

Mr. Graham, who was shown about the port during his visit here by Mr. Hutchinson, was for many years prominent in local commercial circles, formerly being in charge of the Los Angeles freight offices of the Southern Pacific Company.

**PAVING OF  
STREETS  
ORDERED**  
Council Prepares for Jobs  
to Cost \$250,000; Will  
Begin Soon

The City Council yesterday ordered City Engineer Griffin to prepare an ordinance for the paving of Hill street from Washington to Thirty-eighth street, and for the paving of Santa Barbara Boulevard from Grand to Moneta avenue.

Paving of these streets, which is expected to begin in a short time, represents one of the greatest improvements undertaken by the city in recent years. The project is expected to cost approximately \$250,000.

The city is already engaged in opening and widening Hill street from Washington to Thirty-eighth street. Many houses and buildings along this street have been torn down and preparations for grading it are under way.

**New Well Shows  
Large Area of  
Oil Production**

By a "Times" Staff Correspondent  
LONG BEACH, Dec. 14.—A three-day check on Herwick well No. 7, which promises to prove up a large area of new territory in the local oil field, shows that the oil production of the well is slowly, but surely climbing, according to an official statement issued today.

A corresponding increase in the gas pressure has also been apparent during the three-day test, it was said.

The well became the center of interest for the entire local field several days ago when it gave indications of coming in as a gusher. Ill luck in swabbing operations and difficulty in clearing the completed well has interfered with further production, it is said.

The oil now coming from the well is virtually free from sand and emulsion, the cut being close to one-half of 1 per cent, the check shows. The gravity has increased from 23.3 to 25.4. Today's gauge shows a daily production of 217 barrels.

(Hamburger's Luggage Department, Main Floor)

## NINE MOTORISTS JAILED

Bench Warrant Issued for Girl Speeder; Other Drivers  
Draw Heavy Fines

Reckless driving cost J. D. Sullivan his liberty for the next fifteen days in Police Justice Chambers' court yesterday. Sullivan was arrested by Patrolmen Stoll and Weaver in front of a building at 1044 West Temple street. The officers stated that Sullivan had driven his car into the curb at a rate in excess of twenty-five miles an hour, striking another machine parked at the curb and partially wrecking it. Sullivan was said to have been drunk at the time.

Eight other motorists went to the City Jail under verbal propulsion from Justice Chambers. Each received three days and in addition one of the offending motorists had his license revoked for thirty days.

F. E. Gieger, D. T. Van Patten for going thirty miles an hour at Washington avenue and Cimarron street; Everett J. La Vitte, for doing twenty-eight per at Vermont and Fountain avenues; R. C. Tarrin, for speeding at the rate of twenty-five miles an hour at the intersection of Alhambra Boulevard and Mission Road; George A. Pelt, for doing twenty-four miles

Main street, was given the alternative of paying a \$500 fine or going to jail for 180 days after being convicted of reckless driving. Black, it is charged, drove his car into a telephone post and a mail box on November 16, last, while on a spree with several male and female companions.

Jesse Smith was fined \$300 for reckless driving on West Twenty-third street. T. H. Baird paid a \$100 fine for driving into a motorcycle ridden by Earl E. Patterson recently. Patterson was injured. The accident occurred at Twelfth and Figueroa streets.

**NAME SIMILARITY  
RESULTS IN ARREST**

Similarity of the names of Ernest Claxton, a watchman employed at the Wallington Apartments, and W. C. Claxton, a salesman, resulted in the watchman being held to answer yesterday by Justice Downs on a charge of forgery.

According to testimony adduced by Dep. Dist. Atty. Kline, a notice was sent to W. C. Claxton that \$200 was awaiting him at a local telegraph office, but the notice fell into the hands of the defendant. It is charged, Ernest Claxton obtained the money, signing the other man's name. He was held for trial in the Superior Court.
